

PoE injector

Key Features

- Delivering power and data to equipment via a single Ethernet cable
- Internal power supply
- High safety with surge protection
- Remote power feeding up to 100meters
- PnP, light weight and compact size
- Unique interlocking feature for easy installation

Specifications	
Model	PSE801FM
Standards	IEEE802.3 10Base-T IEEE802.3 100Base-T IEEE802.3af Compliant
PoE pin	4/5(+), 7/8(-) Midspan (Mode B)
PoE Output	52VDC Maximal / PoE Power Max 19W
Input Power	100~240VAC 50/60Hz
Dimensions	145mm(D) X 65mm(W) X 44mm(H)
Indicators	Power Led / PoE Led
Operating Temp/Humidity	0~45°C / Maximum 95% Non-condensing
Storage Temp	-10~45°C / Maximum 95% Non-condensing
Certifications	FCC/CE/KC ROHS
Warranty	1year
